IJGlobal this evening (28 November) presented the winners of the IJInvestor Awards 2024 at an event staged in The Savoy, London. In its sixth year, IJInvestor celebrated the great and the good in infrastructure investments across the world excluding the Americas, which are being commemorated at an event in New York.

The winners are picked by a panel of [independent judges](#), who waded through a record number of submissions. As always, judges are recused from voting on awards where they have an interest.

We offer up a slew of stories on the winners – with judges’ comments and explanations as to why they have won – as we raise our hats to their achievements in such an important field of activity.
