IJGlobal on 5 December presented the winners of the IJInvestor Awards 2024 at an event held in New York. In its second year, IJInvestor celebrated the great and the good in infrastructure investments across the Americas.

The winners are picked by a panel of [independent judges](#), who waded through a record number of submissions. As always, judges are recused from voting on awards where they have an interest.

The winners for the Rest of the World were presented in London on 28 November. You can see the results [here](#).

We offer up a slew of stories on the winners – with judges' comments and explanations as to why they have won – as we raise our hats to their achievements in such an important field of activity.
