

IJGlobal Awards 2024 LAC-Core Clean Energy – Clara Bowman

Ila Patel

14/03/2025

For the second year in a row, IJGlobal is pleased to announce the Latin American & Caribbean Council on Renewables and Energy Transition (LAC-CORE) Clean Energy Award for an individual that has made a positive impact on the development of renewable energy, sustainability, and reduction of the carbon footprint in the region.

The nominees can come from the public, private or non-profit sectors and may hold public office or have done so in the past.

This year's winner – selected by the board of LAC-CORE – is Clara Bowman, COO and board member of HIF Global, a company that produces e-Fuels with green hydrogen and recycled CO2 from numerous sources.

Clara has been instrumental in building the business from a start-up to the world's premier e-Fuels company, with a groundbreaking production facility in Chile and commercial projects in development around the globe.

Prior to her role at HIF, Clara was general manager at power producer AME for 15 years where she led the development of large-scale infrastructure projects facilitating the energy transition in Latin America.
